Data Set Information

Group 8   National track records for men in 55 countries. Variables are, in order, the country and different distances from shorter to larger:

- Country

- 100 m (in seconds)

- 200 m (in seconds)

- 400 m (in seconds)

- 800 m (in minutes)

- 1500 m (in minutes)

- 5000 m (in minutes)

- 10000 m (in minutes)

- Maratón (in minutes)

```
> data8=read.table("data8.DAT")
> head(data8)
>colnames(Grupo8)=c("country","100m(s)", "200m(s)", "400m(s)", "800m(m)",
+ "1500m(m)","5000m(m)", "10000(m)" "Marat(m)")
```

You can define a categorical variable grouping the countries by continents, for example.
